DETAILED ACTION

This is the third Office Action following the Request for Continued Examination based on the 10/786893 application filed February 24, 2004. Claims 28-36 and 44-46 as presented August 18, 2010 are currently pending and considered below.

Terminal Disclaimer

1. The terminal disclaimer filed on August 18, 2010 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of USPN 6,595,983 B2 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

2. Claims 28-36 and 44-46 as filed August 18, 2010 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance: The claims in this application have been allowed because the prior art of record fails to disclose either singly or in combination the claimed device including a three dimensional steerable catheter having a proximal shaft and a distal shaft, the distal shaft having a preformed support section having a particular configuration such that a first plane is defined between a transition segment and an abutment segment and a second plane is defined by the abutment section and the point of connection between a first ostium segment and a second ostium segment, and wherein the catheter has two configurations which differ

in the angle between the first and second plane, and wherein, when the proximal shaft is rotated clockwise, the distal tip of the device follows the second plane as it rotates in response to rotation of the proximal shaft.

The closest prior art of record is Voda (USPN 6,595,983) which discloses all of the elements claimed by the applicant, but does not teach that the distal tip of the device follows the second plane as it rotates in response to rotation of the proximal shaft.

Regarding independent claim 28, the distal tip of Voda '983 leads the second plane as it rotates in response to rotation of the proximal shaft.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
